

Start-up Sheet: Vocaroo

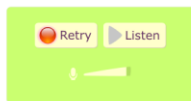

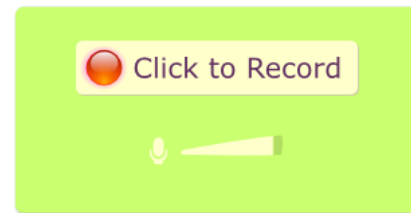

What is it? Vocaroo is a resource that allows students to record and share their responses.

Possible Uses: Students can record a response and share it with their teacher.

Getting Started: Go to www.vocaroo.com.

You can choose to upload or create a recording.

Recording a Response: Click on the red button to begin recording. Record and then hit stop when you are finished recording. It will ask you to retry or listen.

If you are happy with your response click to save. It will then give you the url of your recording as well as the embedding code so that you can embed it into your wikispace or website.
